

2010 FSHD Global Golf Tournament

The FSHD Global Research Foundation is an Australian not-for-profit organisation dedicated to finding a treatment and cure for Facio-Scapulo-Humeral Dystrophy (FSHD).

In most countries research into FSHD has been severely neglected.

Help us make a difference by supporting this year's Annual FSHD Golf Tournament.

Following the resounding success of the 2009 inaugural FSHD Global Golf Tournament, this year we are offering national championship grade golf courses at the New South Wales Golf Club and Terrey Hills Golf & Country Club

Held over two days, entering a team into the Ambrose formatted event enables you to register a four person team into both games.

With the option to invite four different people to each game, networking opportunities will be available before, during and after each game.
